ABOUT US

Welcome to Performance Insulation, your trusted partner in innovative pipe insulation solutions. As a sister company to our renowned textile plant—a leader in flame-resistant woven materials for over 75 years—we bring decades of specialized expertise to our work.

Building on our textile heritage, we leverage our experience in advanced engineering to create durable, high-performance insulation for industrial and commercial use. Our products are designed to excel in tough conditions, ensuring safety, energy efficiency, and long-term reliability—all backed by a legacy of quality craftsmanship.

OUR MISSION

Our mission is to revolutionize the pipe insulation industry by delivering cutting-edge, reliable, and eco-conscious solutions. We aim to enhance energy efficiency, promote safety, and support sustainable practices, all while upholding the legacy of quality established by our 75+ years of textile expertise.

WHERE PERFORMANCE MEETS EFFICIENCY

INNOVATIVE PIPE INSULATION SOLUTIONS

OUR EXPERTISE

Thermal Insulation
Reduce heat loss and optimize energy efficiency across pipelines and processing facilities.

Cryogenic Solutions
Advanced insulation for low-temperature systems to ensure performance and safety.

Corrosion Prevention
High-quality materials and techniques to prevent moisture ingress and extend pipeline lifespan.

Acoustic Insulation
Minimize operational noise with innovative sound-dampening solutions.

INDUSTRIES WE SERVE

- **Natural Gas Processing Plants**
- **Crude Oil Pipelines**
- **Petrochemical Facilities**
- **LNG Terminals**
- **Storage Tanks & Distribution Centers**

WHY CHOOSE US?

1 Industry-Specialized
Custom insulation systems designed for midstream Oil & Gas.

2 Compliant
Industry standard certifications including API, ASTM, and ISO.

3 Sustainable
Eco-friendly materials and processes to support your company's sustainability goals.

4 Cost Efficient
Our solutions reduce energy losses and maintenance costs,

5 24/7 Support
Dedicated customer service to ensure uninterrupted operations.

WHAT SETS US APART

Performance Insulation stands apart with decades of textile expertise that enables us to craft superior pipe insulation from flame-resistant woven materials. With best-in-class R-Value, customization, and sustainability, we deliver unmatched solutions and word-class service for midstream energy operations.

OUR OFFERINGS

Pipe Insulation Systems
Customizable thermal and cryogenic insulation for pipelines.

Insulation Jackets
Removable, reusable insulation covers for easy maintenance.

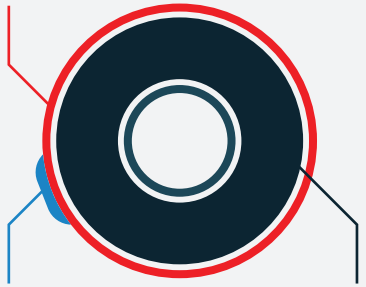

Fire Resistance Solutions
High-performance fire-resistant wraps.

Field Services
High-quality installation, inspection, and maintenance by certified professionals.

Unbeatable R-Value
Pipe insulation with an R-rating of 27 to 34.

Outer Shell
10oz Ripstop Material
Waterproof & Fire Resistant
Antifungal Coating

R-RATING IS 27 TO 34

Outer Closure
Bell Flap Closure
3mm Neoprene Inner
10oz Outer Shell
Hook & Loop
Tested for 20K Uses

Inner Material
Rated for -40F to 250F
Fire Rated
Corrosion Prevention
No CFC/HCFCs
Laminated Foil
